

Connect with the Experts: Current Topics in HCV and HIV

15-minute, expert-led webinar series – Tuesdays, 12:00 PM ET/9:00 AM PT

MAY 2, AT 12:00 PM ET/9:00 AM PT

Black Box Warning: Hepatitis B Testing for Patients on Hepatitis C Direct Acting Antivirals

Speaker: **Jordan Feld, MD, MPH**
Toronto General Hospital
University Health Network, Toronto, Canada

Dr Feld graduated from medical school at the University of Toronto in 1997 and then completed residency programs in internal medicine and gastroenterology.

Following his clinical training, Dr Feld focused on developing skills in clinical and laboratory research in liver disease, with a particular interest in viral

hepatitis. He completed a clinical research fellowship in hepatology and then spent 4 years doing clinical and laboratory research in the Liver Diseases Branch of the National Institutes of Health. He received a Masters of Public Health with a focus on infectious diseases as a Sommer Scholar from Johns Hopkins University and has worked extensively abroad, maintaining a strong interest in international health.

Currently, Dr Feld is a clinician-scientist based at the Toronto Western Hospital Liver Clinic and the McLaughlin-Rotman Centre for Global Health.

Program objective:

At the conclusion of this program, participants will be able to:

- Explain testing associated with black box warnings and why additional testing is needed
