Overlapping Symptoms of Respiratory Infections and COVID-19—What You Need to Know

Presented by:**William A. Meyer III, PhD,
D (ABMM), MLS (ASCP)^{CM}**Director and Medical Science Liaison
Infectious Diseases & Immunology
and Technical Director, East Region
Quest Diagnostics

Dr Meyer serves as a clinical pathology expert for consultations in the infectious disease and immunology clinical franchise. He received his PhD in Medical Microbiology from the University of Maryland at Baltimore, and is a Diplomate in the American Board of Medical Microbiology. Dr Meyer currently serves as Chair of the National Institute of Health (NIH) AIDS Program Virology Quality Assessment Advisory Board. He has co-authored more than 185 laboratory-based research publications/conference abstracts dealing with infectious disease, and presented lectures in virology at the Mayo Clinic and the Pan American Society for Clinical Virology national conventions.

Moderated by:**Hema Kapoor, MD,
D (ABMM), SM**Senior Medical Director
Infectious Diseases & Immunology
and Global Diagnostics Network
Quest Diagnostics

Dr Kapoor is available for expert consultation in infectious disease and immunology, including advising on test selection and interpretation of results in tuberculosis, chronic viral (HIV, hepatitis B/C), autoimmune, rheumatic, and gastroenterological diseases. Prior to joining Quest Diagnostics, Dr Kapoor was Manager of Virology at the Michigan Department of Community Health. Early in her career, she worked at tertiary care hospitals where she was a subject matter expert for infectious disease testing, drug-resistant bacteria, hospital infection control, and interventions.

Please note: Advance registration is required for participation.

Program objectives

At the conclusion of this program, participants will be able to:

- Explain the most current updates on SARS-CoV-2 (COVID-19) testing
- Explain the overlapping symptoms of respiratory infections, and the role of various molecular testing as the influenza season and COVID pandemic collide
- Understand the combination of diagnostic tests for influenza season
